

Guidelines for youth basketball registration

2009

Friendship Requests

Friendship requests are not always guaranteed.

- Only one friendship request per child will be allowed. Multiple requests made for the same child in the same league will not be accepted.
- Siblings will automatically be placed on the same team, unless otherwise specified. This will not count as their friendship request; each child may make a separate friendship request.
- Children of head and assistant coaches who have requested to coach together will not be allowed a separate friendship request. The coaching pair request qualifies as their child's friendship request.
- Friendship requests must be received on before the registration deadline. Friendship requests will not be considered after the registration deadline has passed.
- Friendship requests must be reciprocated in order to be honored. Ex. John must request Mike and Mike must request John.

Other requests and placements

- Requests to have a specific coach will not be accepted. The only way to have a specific coach is to be the other half of the coaching pair. (One head coach/one assistant coach per team).
- Requests for a specific practice night is not possible. There are too many variables affecting the assignment of a practice night to be able to guarantee specific nights to individual participants.
- Requests to not have a specific coach will be accepted. Request must be submitted in writing before the registration deadline.
- Each team initially will only be assigned one head coach and one assistant coach. Once the roster has been posted additional coaches may help the team out.
